

How the Poor Adapt to Poverty in Capitalism (Mellen Studies in Economics)

This study traces the ways in which those most detrimentally affected by the operation of the capitalist market economy manage their circumstances. Borrowing, begging, stealing, repair, emigration, family budgeting, second-economy activity, solace and release are all explored. They are shown to have timeless and universal qualities underestimated by the political right, with their emphasis on the poor's intellectual weakness or cultural deviancy, and by the left in the hope or expectation of resistance.

Make Oak Ridge Energy Efficient

Our Mission

Make Oak Ridge Energy Efficient (MORE2), in conjunction with the City of Oak Ridge Electric Department, is upgrading the homes of qualified Oak Ridge community members with free energy-efficient equipment, such as new HVAC and water heating units, which lowers electric bills, improves home comfort, and helps the environment.
