

Talk of the Nation: Language and Conflict in Romania and Slovakia

How can democratization, coupled with transnational integration, resolve conflicts over cultural difference in places that are marked by legacies of nationalist competition? This book explores that question through a comparative study of contestations over language use in the heart of the post-Communist region. Zsuzsa Csergo notes that newly independent governments looked to rejoin the West, in particular the European Union, while at the same time asserting control over the institutions they considered key to the reproduction of national cultures. These national projects resulted in renewed salience for minority language rights and a complicated politics triggering EU concerns about the treatment of regional/cultural minorities. Csergo's field research in Romania, Hungary, and Slovakia leads her to make a bold claim about the primacy of domestic politics in the construction of democratic solutions to the conundrum of nation building and minority rights. Talk of the Nation breaks new ground by focusing on both majority and minority political elites and parties in interethnic relations. Csergo challenges arguments about the overwhelming importance of international influence. Her book demonstrates that the role of domestic political actors in interethnic reconciliation is not merely that of compliance with international requirements or effectiveness in responding to external pressure—they are largely guided by the internal democratic process.

Make Oak Ridge Energy Efficient

Our Mission

Make Oak Ridge Energy Efficient (MORE2), in conjunction with the City of Oak Ridge Electric Department, is

upgrading the homes of qualified Oak Ridge community members with free energy-efficient equipment, such as new HVAC and water heating units, which lowers electric bills, improves home comfort, and helps the environment.
